

## Stacey On Calling Women To Be Counted in Online World Record

- Online business owner Stacey Sargison is attempting the digital world record for *Most Photos of Female Entrepreneurs with a Laptop in 12 Hours*
- The first of its kind, the virtual attempt event will be held on 22 May 2022
- An opportunity for women to broadcast their business to the world
- Supporting Make A Wish Foundation for terminally ill children

**Sydney, Australia — May 13, 2022** - Stacey Sargison is calling on women around the globe to join her in setting a world record, by uploading a photo of them with their laptop.

The [\*Global Entrepreneur Monitor\*](#) report for 2020/2021 shows 274 million women involved in business startups, while an additional 139 million women are owners of established businesses.

Despite the enormous numbers, there's never been a world record attempt representing them.

A self made millionaire through online business, Stacey's seen first hand how powerful a laptop can be. There was a time after leaving her high flying Hollywood job that Stacey felt so alone she considered ending her own life.

Thankfully, she didn't.

Stacey credits "saving her life" to discovering positive online communities, and creating independent income through entrepreneurship. And she knows she's not alone.

*"Hundreds of millions of women are using their laptops to create income, get out of debt, raise families and support communities. Every one of them deserves to be recognised and written in history."* She says of her ambitious mission. *"Together we will make that happen."*

Stacey chose woman-founded *Extreme Excellence World Records™* to oversee the attempt, which gives participants extra benefits such as advertising their business for free.

## Stacey On Calling Women To Be Counted in Online World Record

*“I’m crying because I know I am meant to be part of this record! It’s shown me and my daughters that we can be recognised at the highest level. I want all women to have this feeling!”*

Tarryn Osborne, Online Business Owner and World Record Participant

### **About the World Record**

This is the official world record attempt for “*The Most International Uploads of Photos of Female Entrepreneurs with a Laptop in 12 Hours*”.

It will be attempted virtually on Facebook and Instagram on 22 May, 2022.

To participate for free, women can register at [www.staceysargison.com/worldrecord](http://www.staceysargison.com/worldrecord).

Then simply upload a photo of them with a laptop to their own social media account on 22 May 2022, using a special hashtag they’ll be provided.

A percentage of all funds created from the project will be donated to *Make A Wish Foundation*® charity, supporting terminally ill children.

### **About Stacey Sargison**

Stacey Sargison is an online self-made millionaire whose clients include NASA pioneers, Hollywood celebrities, Formula 1 engineers. She’s been broadcast to over 867 million people and featured in *Entrepreneur, Forbes, BBC, MSN, Newsweek, The Guardian, The Telegraph and TEDx*. Stacey's live social videos reach up to 320k views each.
